PROFESSIONAL EXPERIENCE

Software Developer

ENCO Engineers Combine PVT. LTD.

Worked on the different modules of ERP (sanChalan -www.sanchalansoft.com) using Angular 7.3, HTML, CSS, Bootstrap, PHP & MySQL.

Human Resource : Contains the functionality of creating payroll on the basis of daily attendance and log hours. It also consists of the every necessary employment details of the employees and gives feasibility to apply for leaves, create a holiday calendar and shift roster. Worked on this module to develop different forms to help HR for data related to employees of staff and contractors.

Finance : This module is used for purposes related to salary, profit and loss, balance sheet, debtors overdue, Working capital, cash flow and ledgers.

Invoice : Bill generation and printing. Worked on this module on E-way bill and different invoices for our company(sale, rejection and trading).

Inventory : This module helps in tracking the inventory, finished goods and raw products.

Purchase : This module helps the SCM team to track how much materials have been purchased from vendors with their different reports, worked on forms like purchase order, Indent, Vendor Scheduling.

Marketing : This module helps BD persons to store data related to Customers and raise RFQs.

Operation and Control : In this module we have made approval systems for different forms, Daily Report sending system for employees, and auto mailers can be configured from this module.
